

REPORT: WP T1 workshop during Maritime Festival in Kotka, Finland

The CBSmallPorts project participated in the multi-day Maritime Festival (Kotkan Meripäivät) in Kotka, Finland. Participation was part of the project's work packages T1 (workshop) and T2 (participation in local event). The Maritime Festivals started on Wednesday 27.7. and ended on Saturday 30.7.

The workshop was on held on Thursday 28.7. (see agenda and invitation below)

Topics:

1. Energy efficiency and safe boating
 - Energy saving possibilities and the use of solar energy in small ports and boats (off-grid PV demo)
 - Current information on safe boating
2. Baltic Sea boating destinations in Finland, Sweden, Estonia and Latvia (presentation language Fin/Eng)
 - Presentation and distribution of boating and route guides published by the Central Baltic projects
