

Baltic Sustainable Boating

Aim and background

Dick Netterlid

Secretary General

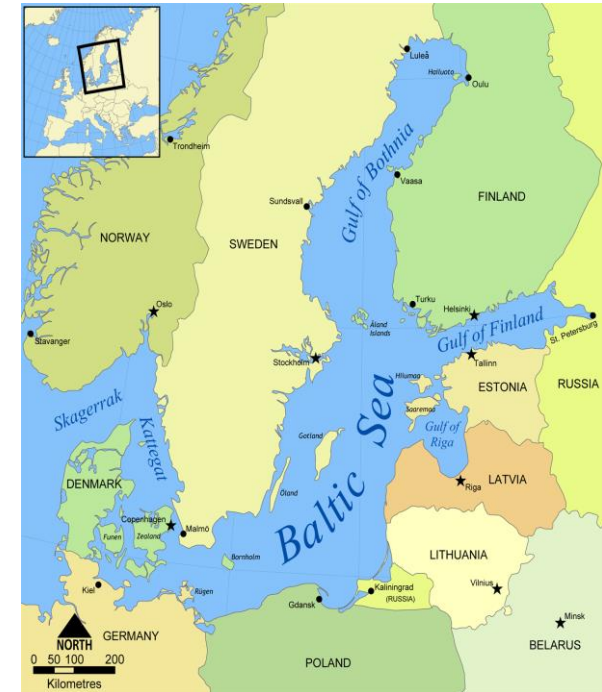

Swedish Union of Guestharbours

It all started in Jurmala April 2019 at a conference on small ports in Baltic Sea region.

Februari 2020, an application was submitted to the Swedish institute "Baltic Sea Cooperation" for pre study funding with the aim of anchoring a future collaboration in marketing an increased sustainability in a common sailing area.

March 2022, an application is submitted to Interreg Baltic Sea Region for support for continued work.
"Baltic Sustainable Boating"

More than 1 000 guest harbours

(Swedish archipelago, South Coast Baltic, East Baltic Coast)

”a unique sailing area with many unique maritime destinations and reasons for visiting”

”a sailing area which , in cooperation, stands strong against the competition from the mediterranean”

”a work where we learn from each other and strenghten and develop the individuel port”

Risk we take

**”That we get more boat guest and tourist
at our maritime destinations”**
