

Photo collage: CBSmallPorts project in Naantali boat show on May 27th-29th 2022

Naantali floating boat show was organized now in May 27th – 29th 2022 for 11th time and the event venue was again the old city marina of Naantali. This event collected together more than 100 exhibitors and more than 100 boats to be shown for visitors, and the number of visitors was around 15.000 people, altogether during the three days. Naantali floating boat show is also the first one of floating boat shows organized annually in Turku region. The latter floating boat show will be held in September in Ruissalo Event Yard in Turku.

Covid-19 pandemic has also forced all boat shows to take a break, so this year's floating boat show in Naantali is the first one in Finland after the pandemic. Even the bigger indoor boat shows for 2022 were cancelled early in beginning of the year. Photo #1 shows the event area for the floating boat show organized in Naantali old city marina. CBSmallPorts project and UTU/Brahea had their booth in the area "b".
